

Start Connecting with XOOM Energy

1

Become Your Own Customer

Experiencing for yourself the benefits of being a XOOM Energy customer is the most compelling testimonial you can offer your customers with the extra benefit of being compensated by ACN.

If you live in an energy choice market serviced by XOOM Energy, you don't need to be accredited to become your own customer. You can enroll using your ACN Personal Website and become your first XOOM Energy customer.

Start Connecting with XOOM Energy

2 Get Accredited

To start referring your customers to XOOM Energy you will need to complete the XOOM Energy Accreditation Training by visiting acn.xoomenergyhub.com/en/accreditation.

Once you complete this training, you'll take a short Accreditation Questionnaire. Then, you'll agree to all terms within the XOOM Energy Code of Conduct. Finally, if you plan to refer customers in Delaware, New York, Rhode Island, or Ohio, you'll need to create a XOOM Energy badge, which you can do during the accreditation process.
