What is

sharing?

Your Solution to the Rising
Cost of Healthcare.

Impact Health Sharing
delivers a modern and
affordable alternative to
health insurance.

Impact was founded to put the power, the freedom, and the control in paying for healthcare back into your hands.

Impact is open to anyone who is interested in sharing and saving on their healthcare.

Why Impact Health Sharing?

It's affordable.

It's comprehensive.

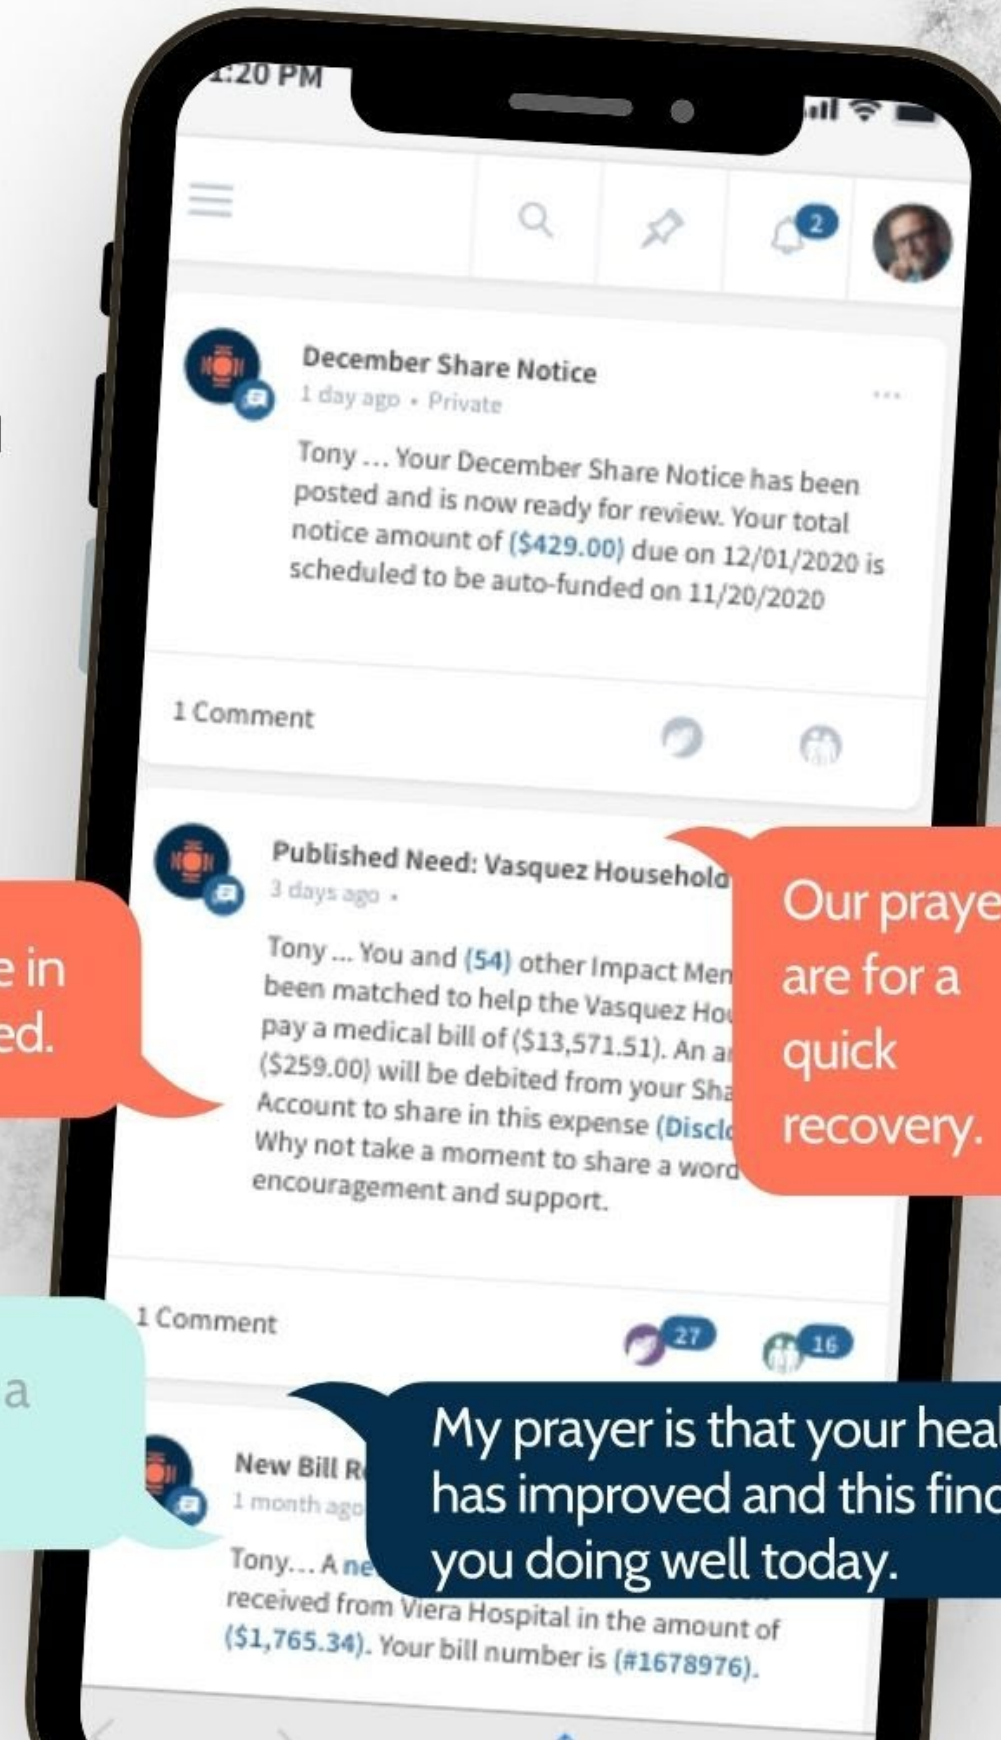

It's accessible & inclusive.

Impact is a community

Members share each other's eligible medical bills and, most importantly, encourage and lift one another up.

COMMUNITY IN ACTION

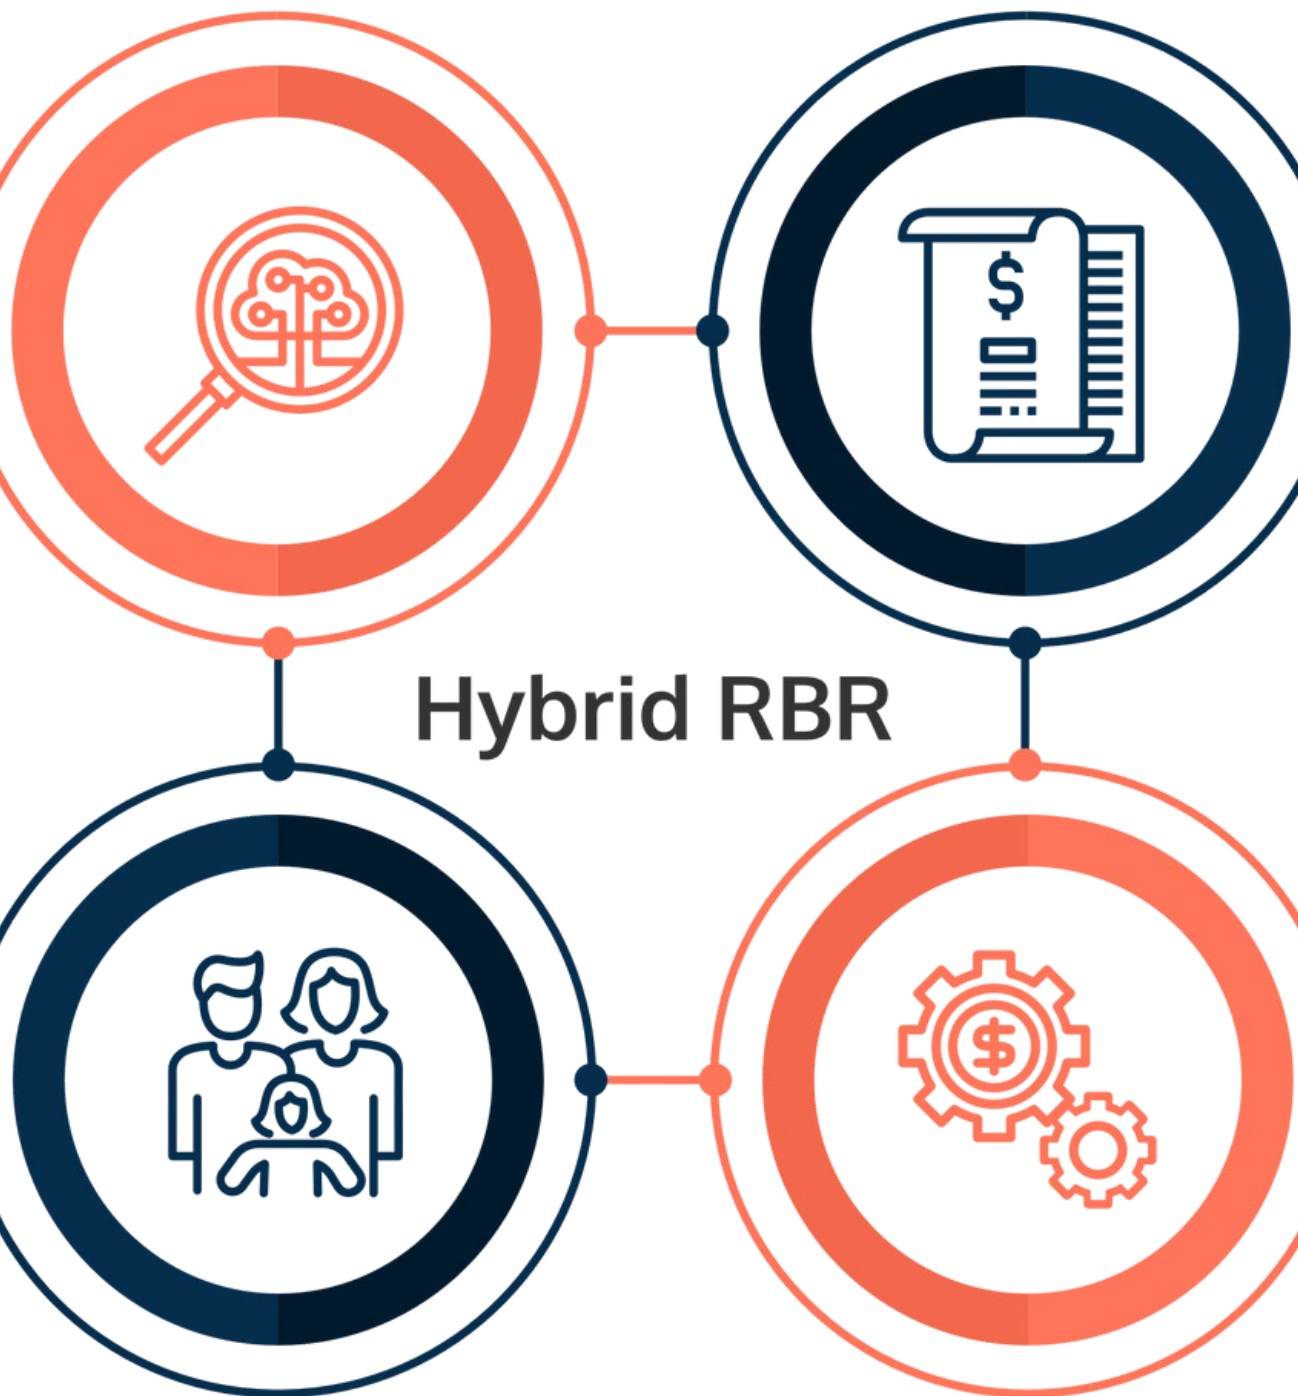

Happy to share in your time of need.

Our prayers are for a quick recovery.

Sending prayers for a speedy recovery.

My prayer is that your health has improved and this finds you doing well today.

How does it work?

It's pretty simple. Members simply pay each other's medical bills.

Each month Impact Health Sharing works to make that happen. Impact matches monthly shares to pay eligible member bills based on agreed-upon sharing guidelines.

Our mission is simple and impactful:

We believe in providing a member-centric experience while delivering value and transparency in the sharing of medical expenses.

The US Health Care System is in Crisis.

The majority of the population is either uninsured or carries insufficient healthcare coverage.

- Healthcare bills are the leading cause of bankruptcy.
- 5% of the US population accounted for 50% of all health spending.

Timelines

We want to make sure your business and employees have timely access to healthcare.

To help us provide you with the best service:

- Please generate an Impact Health Sharing group quote at least 5 business days before the start of the new month.
- If you miss the deadline, don't worry - we'll work with you to enroll you in the following month.

Phases for Enrollment

1.

Prospecting

During the prospecting phase of group enrollments, you will be provided with a quote directly from Impact Health Sharing.

2.

Inquiry & Discovery

During the inquiry and discovery phase of group enrollment, you will connect with a representative from Impact and your referring partner/IBO (if applicable) to discuss quoted pricing, qualification of group participants (employees), and billing options.

At the end of this phase, the group administrator (owner of business and other decision-makers) will determine if they would like to roll Impact out as their primary, or secondary healthcare option of choice.

3.

Presentation and Disclosure

During the presentation and disclosure phase, a representative from Impact will meet collectively with staff (virtual options available) to present their new healthcare offering and fully disclose the inner workings of the membership.

2 business days before this meeting, each group participant will receive a virtual copy of the Impact Membership guidelines and an educational video. This will allow for better questioning during the meeting.

4.

Membership Initiation

During this phase, Impact will work directly with the group administrator to generate the company's sponsor center, get each program participant a unique payment token, and support them through the application process.
